

Australian Network for Plant Conservation, Inc
presents a workshop on

REHABILITATION AND MANAGEMENT OF DISTURBED NATIVE VEGETATION

Ulladulla Wednesday 25 - Thursday 26 October 2006

Venue: Civic Centre, Princes Highway, Ulladulla NSW

Are you involved in the rehabilitation of native vegetation?
Does your work-site include native vegetation that you need to manage or rehabilitate? Do you participate in local rehabilitation projects?
Are you interested in reversing the decline of native plant communities in your area? Then this workshop is for you!

Workshop focus:

The knowledge and skills required to undertake ecological rehabilitation and management of disturbed native vegetation.

Themes include:

- The ecological principles essential to planning a rehabilitation project.
- Understanding the task (the goal for the site, planning, assessing site and vegetation condition, issues such as soil health and soil symbionts, provenance, impacts on coastal environments, monitoring and ongoing management).
- Applying ecological principles to rehabilitation projects (local case studies, site visits, demonstration and trialling of techniques).

The workshop will be a mix of presentations by experienced rehabilitation practitioners and visits to selected field sites. Participants will expand their skills and knowledge, challenge preconceptions, exchange ideas and expertise, work with experts and broaden networks.

Workshop fee (incl catering, field trip, Plant Conservation Techniques manual on CD & GST):

ANPC member: \$175 *Concession: \$85
Non-member: \$195 *Concession: \$105

* Concession for volunteer community group members, full-time students, pensioners.

Registrations close: Friday 13 October 2006

Accreditation: Participation in ANPC workshops can contribute to qualifications in the Conservation and Land Management Training Package. Cost = \$25 (incl GST). More information available on request (and on ANPC website).

This workshop is subsidised by the NSW Government through its Environmental Trust
